

My family and I listen to K-LOVE radio here in Tucson on FM frequency 100.9MHz. We are encouraged and blessed by the programming on that radio station. The music and occasional features are uplifting and give us all the boost we need to go out into our world each day and make a positive contribution to our community. The music on K-LOVE does not attack others or encourage disrespect towards authority. It does encourage us to have open and loving hearts for our families, our neighbors, our community and our nation. This is a personal attitude that is so lacking in our society today. As it stands, there is no similar programming on the Tucson radio dial. To lose K-LOVE as a result of the proposed expansion of LPFM stations would be a detriment to our family and a great loss to the people of Tucson. I urge the FCC to give consideration to the negative impact this will have across the nation, as well as here in So. Arizona.
